

Transform Spaces with Countertops from LG Surfaces

A Sysco™ iCare Partner

Make a powerful statement and enhance the look and feel of your foodservice operation with premium countertops from LG Surfaces. Remember you don't get a second chance to make a first good impression. With our broad spectrum of Solid Surface, Stone, and Eco colors to choose from the design possibilities are limitless. And through our partnership in Sysco's iCare program, now is the time to create that unique design at the price point you can afford!

In restaurants, cafeterias, educational or healthcare facilities, countertops and other surfaces are focal points. Food is served, meals are prepared, transactions take place, and all manner of business is conducted. LG Surfaces creates products, with the idea that a surface is more than a design element. It's where life happens. Our surfaces are ideal for dining rooms, bathrooms, bars, lounge areas, serving stations, lobbies, or just about anywhere your imagination takes you.

We make surfaces that are durable enough to withstand heavy usage. They're easy to clean, hygienic, stain-resistant, and backed by a 15-year transferable warranty. All LG Surfaces-Solid Surface, Stone and Eco meet the demanding health and safety regulations for surfaces used in commercial foodservice applications, including restaurants, hospitality and commercial kitchens. Each is non-porous, making the surface impermeable to bacteria, fungal growth and food particles. Our surfaces are GREENGUARD certified ensuring they meet independently developed standards for indoor air quality and low pollutant emissions. We also carry the NSF Mark for a safe food preparation surface. Simply put, by choosing any of our surfaces for your foodservice establishment, you are providing the highest level of health and environmental assurance to your customers.

where life happens™

Three Surfacing Categories for Creative Freedom

Solid Surface

LG Surfaces Solid Surface category offers several product lines in a wide variety of colors and patterns. These include HI-MACS, Volcanics, and Lucent, all durable, hygienic, and stain-resistant. Our Solid Surfaces are non-porous, making them easy to clean and are repairable, so they can always be restored to their original state by a LG Surfaces certified professional.

- Non-Porous / Easy to Clean – Safe from Bacteria
- Made from Durable Acrylic for a Seamless Appearance
- Stain Resistant
- Repairable
- 15-year transferable warranty

Stone

The LG Surfaces Stone category includes Viatera quartz surfacing with an array of color and pattern selections. Viatera provides consistent color choices and hygienic properties with the look and feel of natural granite.

- Non-Porous / Easy to Clean – Safe from Bacteria
- Made with 93% Quartz
- Heat and Scratch Resistant
- Low Maintenance - no waxes or sealants required
- 15-year transferable warranty

Eco

LG Surfaces also has an Eco category offering the most environmentally conscious acrylic products available for your foodservice operation. This category includes Eden Solid Surface, an earth friendly countertop product created from pre-consumer recycled content.

- Non-Porous / Easy to Clean – Safe from Bacteria
- Made from Durable Acrylic for a Seamless Appearance
- Stain Resistant
- Repairable
- 15-year transferable warranty

IN SINK with LG Surfaces...

LG Surfaces also carries a full line of integrated and stainless steel sinks specifically designed to meet the needs of the most demanding operations. Each sink offers its own unique design to complement any style or décor.

Getting Started is Easy...

- ✓ **Step 1 – Request an Appointment** – Call 1-877-547-9721, e-mail us at sysoicare@lgsurfaces.com, or visit us at <http://sySCO.lgsurfaces.com> to set-up your FREE countertop design consultation.
- ✓ **Step 2 – Consultation with a LG Surfaces Representative** – An approved LG Surfaces Certified Fabricator Installer (CFI) will come to your place of business, bring samples of the various surface and color options available, discuss your needs, and provide you with a FREE estimate with no obligation.
- ✓ **Step 3 – Countertop Purchase / Installation** – After your purchase, our CFI will fabricate your countertops, and set a date for installation.*

*Minimum purchase of 25 square feet required
*Darker colors will show ordinary wear and tear more readily than lighter colors or patterns
*Must view an actual product sample prior to purchase
*Printed representation will vary from the actual product sample
