

April 2010

Sysco iCare is pleased to announce a new partnership with American Mobile Kitchens and Mobile Kitchens Canada, providers of temporary mobile kitchen solutions across North America.

Since 2003, David Craig, President & CEO, has worked with various companies and organizations to coordinate mobile kitchens, logistics and support equipment to disaster relief efforts, construction relocation projects, military operations, major sporting events as well as movie and television production shoots.

Ranging in size from 14-53 feet, the self-contained mobile units feature equipment and supplies for full menu preparation, ware washing, refrigeration and freezers. Each unit is manufactured to specific client needs and contains fully certified equipment including steamers, skillets, ranges, par broilers, fryers, work tables, and refrigeration.

Based in Inverary, Ontario with facilities in Maryland, Florida, California and Georgia, American Mobile Kitchens and Mobile Kitchens Canada have the logistical capabilities to mobilize equipment, product, staff and resources quickly and effectively across North America. The companies operate a fleet of 42 mobile and support units, have access to an additional 150, custom manufacture approximately 35 units annually, and annually rent / lease between 50-70 units.

Sysco iCare provides valuable resource connections to benefit the Sysco customer base. This new partnership with American Mobile Kitchens and Mobile Kitchens Canada will be of tremendous benefit to businesses in the hospitality, foodservice and event management industries that require temporary mobile solutions.
