

## paperless payroll from skylight financial

A Sysco<sup>™</sup> iCare Partner

In 1998, Skylight Financial pioneered a way for companies to enjoy a cost-effective, 100% paperless payroll system. And the innovative spirit that led Skylight then continues to drive us to develop new ways to make payday a more pleasant experience for both you and your employees.

### A Better Payday for You

With Skylight, you no longer have to bear the expense and hassle of printing and distributing paper paychecks to all your employees. Through direct deposit, your employees' pay will be automatically loaded into their accounts by 9am on their payday. It's as simple as that.

Because the Skylight program is 100% paperless, not only is it a great way for your company to further its green initiatives, but also cut costs in this troubling economy. Companies who use Skylight for payroll save an average of \$2.41 per pay period, per employee.\* And those who also use Skylight's Online Wage Statements enjoy additional savings averaging \$1.90 per employee, per pay period.\* That can add up fast.

### A Host of Benefits

The Skylight payroll program can help you go paperless, cut costs, protect the environment, save time, and manage your payroll with unmatched simplicity. Plus, you'll have access to comprehensive reports, including statistics for payroll administrators regarding card issuance, activations, and other performance metrics.

Best of all, by choosing Skylight you're getting a payroll solution that:

- » Integrates seamlessly
- » Operates with ease
- » Requires minimal management
- » Pays employees on time
- » Saves valuable time

\* The calculations performed to derive these values are based on industry averages for over thirty variables and are being made available to you for information and directional guidance. Actual results may vary. Skylight does not in any way warrant the savings results obtained using this calculation.

## A Better Payday for Your Employees

We provide your employees with Skylight paycards. The cards give everyone who participates, from chefs to servers, immediate access to their pay at over a million ATM and point of sale locations around the world – anywhere Visa® debit cards are accepted. Now, employees and individuals without traditional banking relationships can avoid costly and inconvenient paycheck-cashing services.

Unless they currently use direct deposit, your employees have to get their paper paycheck, which can sometimes mean a special trip to work on their day off. Then, they have to take the check to get it cashed – and that usually means a hefty fee from check-cashing services. Once they cash their check, they're walking around with a large sum of money. You can help your employees stay safe, save money, and avoid hassle by offering them an easy way to get their pay automatically – the Skylight ONE Card.

## An Easy Way for Employees to Manage Their Money

Employees who sign up for a Skylight ONE Card have free access to Skylight's Online Banking where they can:

- » Manage their account, check balances, and make transfers
- » Sign-up to receive Account Alerts to their mobile phone or email address
- » Locate surcharge-free ATM locations to withdraw cash
- » Obtain account information to pay bills
- » And even request a new card in one of four designs that fits their lifestyle

Create an easier payday  
for yourself and your employees –
